IN HONOR OF:

*The E2@15 Celebration of your 15<sup>th</sup> Anniversary. Since 2000, you have been a tireless voice for the portion of the business community that realizes that economic growth and environmental protection are not mutually exclusive. You have played a critical role in the passage of major California legislation including AB 1493, AB 32 and SB 350. Your leadership has demonstrated that these policies not only improve our air, water, and public health, but also create jobs and provide better economic returns using fewer natural resources. The State of California commends you for being an inspiration to the people of the 27<sup>th</sup> Senate District.*
